### *Release of Information*

The appeals policy authorizes the National Registry and its agents to communicate all information relating to National Registry application, registration and review, including outcome of disciplinary proceedings, to appropriate state and federal authorities.

### *Certification Status Pending Appeal*

Excepting cases of summary suspensions as provided in the Disciplinary Policy, a registrant's designation as certified by the National Registry shall not be changed pending the opportunity for the registrant to appeal to the Appeals Panel a decision of the Executive Director to suspend or revoke his or her certification.

Upon the denial by the Appeals Panel of an appeal of the Executive Director's decision to suspend or revoke a registrant's certification, the registrant's certification shall be designated in the National Registry's database as suspended.

A registrant shall not be removed from National Registry's database as a registrant until the exhaustion of all appeals or the expiration of the time in which to appeal a decision denying recertification or revoking certification.

### **Rationale**

A fair and expeditious appeals process is an essential part of due process requirements to protect registrants from arbitrary decisions.
