### PATIENT ASSESSMENT - MEDICAL

**Candidate:**

**Examiner:**

**Date:**

**Scenario:**

### Actual Time Started: ________________

### Possible Points | Points Awarded
--- | ---
Takes or verbalizes appropriate PPE precautions | 1

### SCENE SIZE-UP

- Determines the scene/situation is safe | 1
- Determines the mechanism of injury/nature of illness | 1
- Determines the number of patients | 1
- Requests additional help if necessary | 1
- Considers stabilization of spine | 1

### PRIMARY SURVEY

- Verbalizes general impression of the patient | 1
- Determines responsiveness/level of consciousness | 1
- Determines chief complaint/apparent life-threats | 1
- Assesses airway | 1
- Assures adequate ventilation | 1
- Initiates appropriate oxygen therapy [Not providing oxygen may be appropriate] | 1
- Assesses circulation | 1
- Assesses pulse | 1
- Assesses/controls major bleeding | 1
- Assesses skin [either skin color, temperature, or condition] | 1
- Initiate/call for transport | 1

### HISTORY TAKING AND SECONDARY ASSESSMENT

- Questions onset | 1
- Questions provocations | 1
- Questions quality | 1
- Questions radiation | 1
- Questions severity | 1
- Questions time | 1
- Questions allergies | 1
- Questions medications | 1
- Questions past pertinent history | 1
- Questions last oral intake | 1
- Questions events leading up to present illness | 1
- Performs secondary assessment | 1
- Assesses affected body part/system or, if indicated, completes rapid assessment | 1
- Assesses vital signs | 1
- Diagnostics [blood glucose test, pulse oximetry, etc] as indicated | 1
- States diagnosis of patient | 1
- Verbalizes treatment plan for patient and calls for appropriate intervention(s) | 1
- Transport decision re-evaluated | 1

### REASSESSMENT

Repeats primary survey | 1
Repeats vital signs | 1
Evaluates response to treatments | 1
Repeats secondary assessment regarding patient complaint or injuries | 1

### Actual Time Ended: __________ Elapsed Time___________ Maximum 15 minutes

### TOTAL 39

### CRITICAL CRITERIA

- Failure to take or verbalize appropriate PPE precautions
- Failure to determine scene safety
- Failure to assess or provide adequate ventilation
- Failure initiate appropriate oxygen therapy [Not providing oxygen may be appropriate]
- Failure to initiate or call for transport
- Failure to determine the patient’s diagnosis
- Failure to find or appropriately manage problems associated with airway, breathing, hemorrhage or shock
- Failure to differentiate patient’s need for immediate transportation versus continued assessment/treatment at the scene
- Does other detailed history or physical exam before assessing/treating threats to airway, breathing, and circulation
- Exhibits unacceptable affect
- Orders a dangerous or inappropriate intervention

You must factually document your rationale for checking any of the above critical items on the reverse side of this form.

My signature above affirms that, to the best of my knowledge, this candidate was evaluated without conflict of interest or bias in accordance with NREMT policies and that his/her performance has been documented accurately.
